Working groups results

GROUP A: Analysis of the local contexts

KETHEA – Marianna Gidarakou

ZÚ Ústí – Eva Jilkova

UNISS – Sergio Babudieri, Gianluigi Piu

Firstly, the group has analysed in depth the methodology proposed in the Annex I of the project technical description. Then, it has worked, above all, on the identification of the target groups and on the parameters to analyse the situation concerning the three diseases tackled by the project. Finally, a list of possible target groups on which all the partners have to focus on has been presented to the other participants who have commented on it finding a common solution.

GROUP B: Prevention activities with young people

BFPA – Radosveta Stamenkova
LAC – Svetlana Kopylova
SEA – Rita Simich
KC ds AIDS – Iwona Kaplinska
ISES – Dolores Forgione

Firstly, the group has analysed in depth the methodology proposed in the Annex I of the project technical description. Then, the group has focused its attention especially on the prevention materials. In particular, the group has proposed some changes in the production of the prevention materials looking for something more appealing for young people as stickers, pins and USBs. The changes have been positively accepted by the other project participants.

GROUP C: Training activities for socio-health professionals

SKA - Aleksandra Skonieczna
SKUC – Miran Solinc
KETHEA – Petros Triantos
DHPDP – MaryAnne Massa
UNISS – Anna Bussu

Firstly, the group has analysed in depth the methodology proposed in the Annex I of the project technical description. Then, the group has discussed about the identification of the target groups and about the e-learning platform structure. The suggestions proposed have not been yet in depth analysed by the other project participants given that this issues will be central during the next project meeting in Budapest.

GROUP D: Dissemination

Gratiana Chicin - External Expert
KC ds AIDS - Anna Marzec Boguslawska
ANLAIDS – Carmine Falanga
ISES – Andrea Ferrari

Firstly, the group has analysed in depth the methodology proposed in the Annex I of the project technical description. Then, the group has discussed about the project logo and other dissemination activities as the structure of the press releases and all other issues related to the communication. The proposed logo has not been accepted by the other project participants and ISES is now been in charge for finding a new and more suitable one who will be presented to the partners by the end of July.
